Project Executable Files

Date	30 SEPTEMBER 2026
Team ID	SWTID-2026-1660
Project Name	AI WEATHERWISE API
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	yes
2	README / Setup Guide (instructions to run the project)	yes
3	requirements.txt / package.json / dependency file	yes
4	Database schema / seed files (if applicable)	yes
5	Environment configuration file (.env.example or similar)	yes
6	Deployed application URL (if hosted)	yes
7	APK / Executable binary (if applicable for mobile/desktop apps)	Yes/N/A
8	Dockerfile / Containerization config (if applicable)	Yes/N/A
9	Test files and test results	yes
10	Demo video or walkthrough (if required)	yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

```
AI-WeatherWise-API/
│
├── app.js
├── package.json
├── .env.example
├── README.md
│
├── public/
│   ├── index.html
│   ├── style.css
│   └── script.js
│
└── routes/
    └── weather.js
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Paste your actual deployed URL
Login Credentials (Demo)	Username: Your demo username / Password: Your demo password
Platform / Hosting Provider	Render / Vercel / Localhost — use your actual platform
Repository Link	-
Demo Video Link	https://drive.google.com/file/d/1oPKGT4fzOe0VaRcdSpk6VWpdug_nCIUr/view?usp=sharing

Step 4: Run Instructions

- Install **Node.js**.
- Download or clone the project.
- Open the project folder in **VS Code**.
- Open the terminal.

- Run:

- - `npm install`
- - - Create the `.env` file and add your Weather API key.

- Run:

- - `npm start`
- - - Open the localhost URL shown in the terminal.
- Enter a city name and click **Search** to view weather details.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	AI content generation may take additional time for complex requests	Ensure internet is available
2	Performance may decrease under very high concurrent requests	Check API status and API key
3	API requires valid environment/API configuration	Enter a valid city name
